Strut Ready Cable Rings™

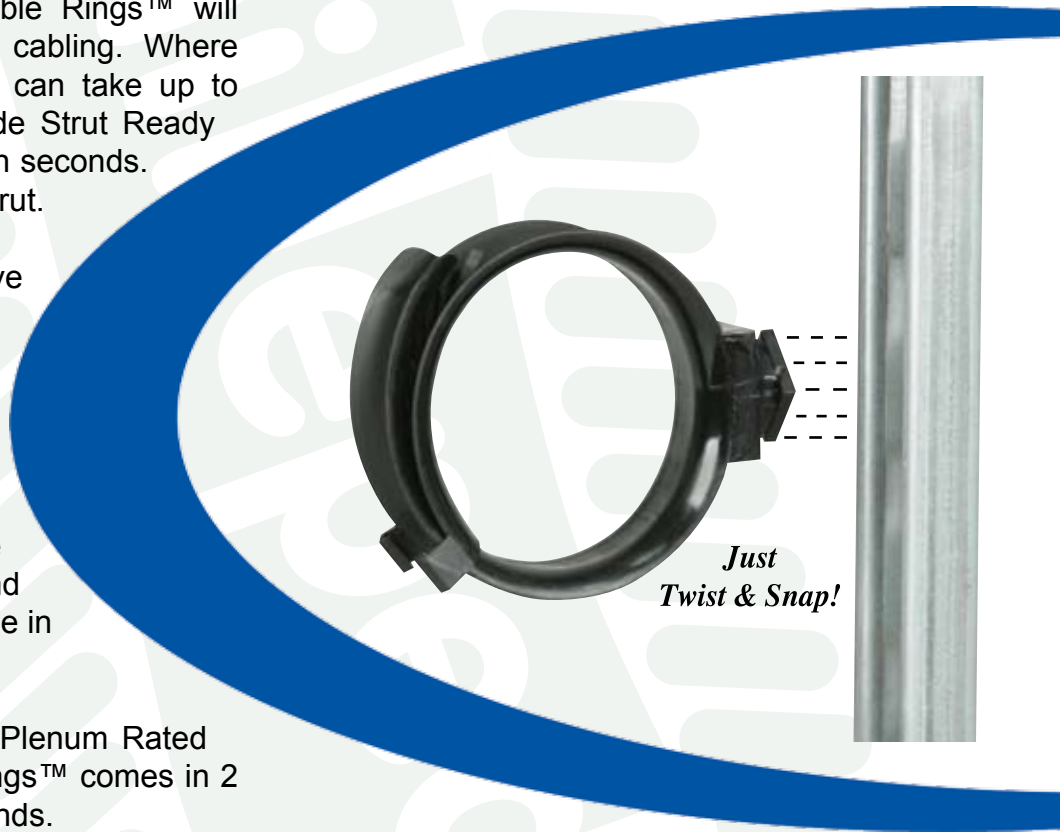

Two Sizes: 2" and 4"

The Millepede Strut Ready Cable Rings™ will reduce your cost of overhead cabling. Where traditional channel strut clamps can take up to 6 minutes to install the Millepede Strut Ready Cable Rings™ can be installed in seconds. Simply insert and twist into the strut.

In seconds, not minutes, you have the clamp in place and ready to hang cable. No longer do you have to worry about screws or special tools to install strut clamps. If you want to add or remove a cable simply open the Millepede Strut Ready Cable Rings™ to make the change and then close. Again this can be done in less than a minute.

Made of light weight nylon, the Plenum Rated Millepede Strut Ready Cable Rings™ comes in 2 sizes, and can hold up to 75 pounds.
